Karen Friedman, Realtor®

We could not be more pleased with the service we received from our Realtor, Karen Friedman, who helped us with the sale of our mother's home in Rockville.

Karen guided us through the process of selling a parent's house as I was acting as her Power of Attorney. Because we were remote, Karen went beyond the call of normal realtor duty by helping us manage activity at the house (neither my sister nor I live in the same state as the house). In addition to showing the house to potential buyers Karen helped us manage the on-site process by working directly with our various vendors and by helping us with small errands where locality counted.

Because of the fix-up help we got, the house showed well and a buyer was quickly in contact. Karen expertly helped us maneuver through the inevitable stressful points and we were thrilled to get to a completed sale on our mother's behalf. We are happy we went with Karen for this process and we would do it again.

Karen Friedman is amazing. She worked tirelessly to sell the condo. Any questions were answered fully. She got us offers for the full asking price quickly. I can't rate Karen highly enough. She exceeded my expectations.

Karen is very knowledgeable about the local real estate market and remained "calm, cool and collected" throughout both of my closings, on both the seller and buyer sides. I would recommend Karen to anyone.

The first time I met Karen, I honestly did not think we were a good fit. As a first-time, Veteran homebuyer with a kid on the way, I didn't expect that she would be interested in taking on my financial and personal obstacles. Let me just say that Karen is an amazing individual. From late night meetings to review and sign paperwork to replacing my Chimney Cap for me after settlement, she exceeded all of my expectations and went above and beyond every time.

As a prospective homebuyer, consider yourself fortunate to work with Karen. When we first met, I would not have considered her a good fit but today she is not just my real-estate agent, she is my friend. Thank you, Karen and see you at the baby shower

We have known Karen for many years, and didn't hesitate to contact her when we were looking to purchase a new home. She was extremely helpful in quickly getting us from offer through to closing, and stayed on top the many deadlines to make sure everything went smoothly. Karen's guidance in preparing the offer and negotiating the sale agreement, along with her knowledge of the closing process, was invaluable. Karen really exceeded our expectations and was a pleasure to work with. We would (and do!) highly recommend Karen to anyone buying or selling a home.
