

Crysta Cooke

As a little girl I had always dreamed about what my home would look like. My home was always a condo in New York, For my mother, it was a home off the beaten path, with a farm, animals and no humans. Both are incredible because it is each individuals idea of peace and happiness. Buying real estate for some of my clients, will be the single largest purchase of their lives, a lifelong investment into their happiness. For others, it could be a quick flip or a new business. Either way, I would love to be there. I will make it memorable for all the right reasons. I strive to help my clients achieve whatever goal or dream they have set for themselves. Having two sons myself allows me to understand that it isn't always easy for people to micro manage their real estate transactions and I am willing to work on your behalf and insure that you are informed every step of this process without disrupting your life. I am available DAY & NIGHT. I believe while I am representing you and helping you, you should be able to contact me whenever you feel the need. That is my guarantee. Aggressive negotiations and driving hard bargains to get you the absolute best. Let me help you live life right. "You only live once-but if you do it right-once is enough" Mae West
